

Minnesota Mammals!!!

Mammal ID

This powerpoint is designed to help with your ability to identify Minnesota mammals. Each animal will appear on a slide, with the next slide being the name of that organism. Take your time going through the slides and try to improve your IDing every time. If you start to memorize that pattern, save the powerpoint to your computer and change the slides around. Good Luck!

Badger

Beaver

lynx

Coyote

Elk

Fisher

Pine Martin

Gray Fox

Red Fox

Gray Wolf
